

How to Publish video on different social account in VidcuratorFx2

* In order publish video on different social account make sure you are connected to all 3 social account (Facebook/ YouTube/ Dropbox) if not please connect to all social accounts first then only you can publish.

A. Facebook

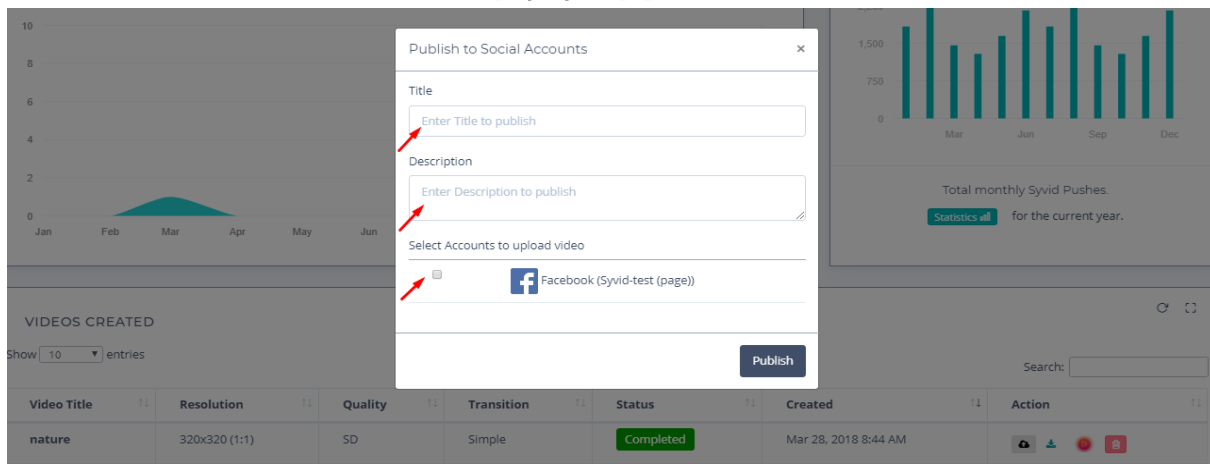

Step 1- In-order to post into your connected Facebook account you need to go to dashboard and click on the "**Publish to social Account**" icon.

The screenshot displays the VidCuratorFX dashboard. On the left, a line graph shows video creation activity from January to December, with a peak in March. On the right, a bar chart shows 'Total monthly Syvid Pushes' for the current year, with a 'Statistics all' button. Below these charts is a 'VIDEOS CREATED' section with a search bar and a table. The table has columns for Video Title, Resolution, Quality, Transition, Status, Created, and Action. One video titled 'nature' is listed with a 'Completed' status. A red arrow points to the 'Publish to Social Account' icon in the 'Action' column.

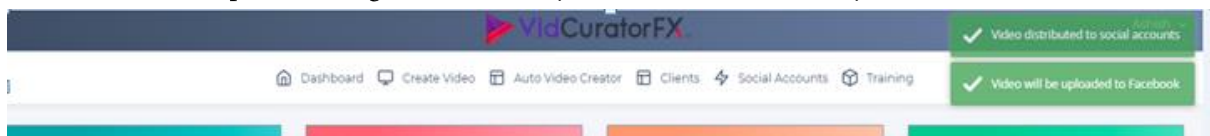

Video Title	Resolution	Quality	Transition	Status	Created	Action
nature	320x320 (1:1)	SD	Simple	Completed	Mar 28, 2018 8:44 AM	[Publish to Social Account]

Step 2- Upon Clicking on Publish to Social Account icon will open up a modal popup where you need to add title and description for the video you would like to post. Give a title and description to the video and then select the Facebook page/group/personal account and click on "**Publish**" button.

The screenshot shows the 'Publish to Social Accounts' modal popup. It contains three input fields: 'Title' (with placeholder 'Enter Title to publish'), 'Description' (with placeholder 'Enter Description to publish'), and 'Select Accounts to upload video'. A red arrow points to the 'Facebook (Syvid-test (page))' account selected in the third field. A 'Publish' button is located at the bottom right of the modal.

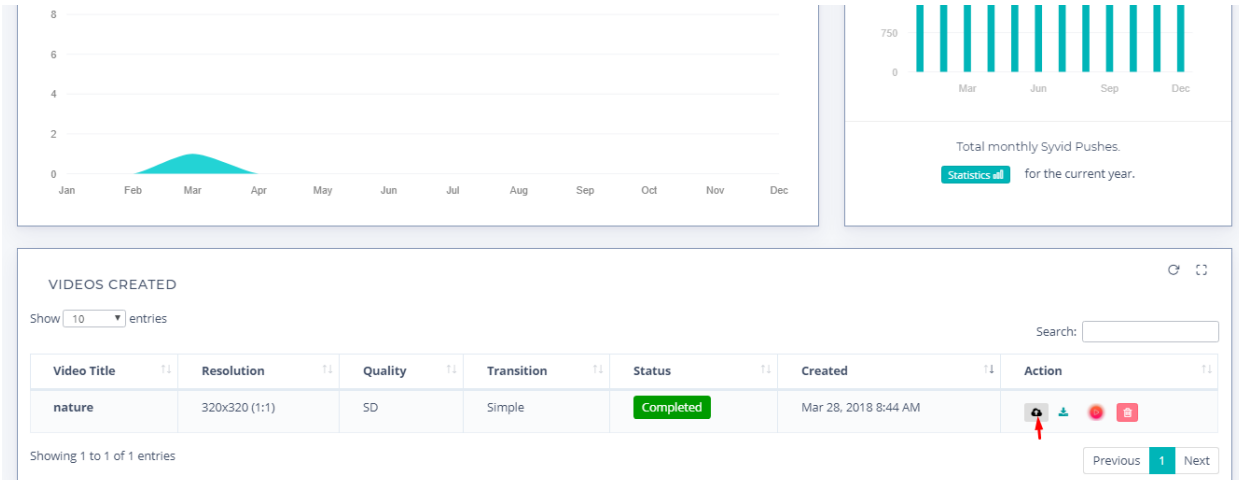

Upon clicking on "Publish" you will be notified on your dashboard

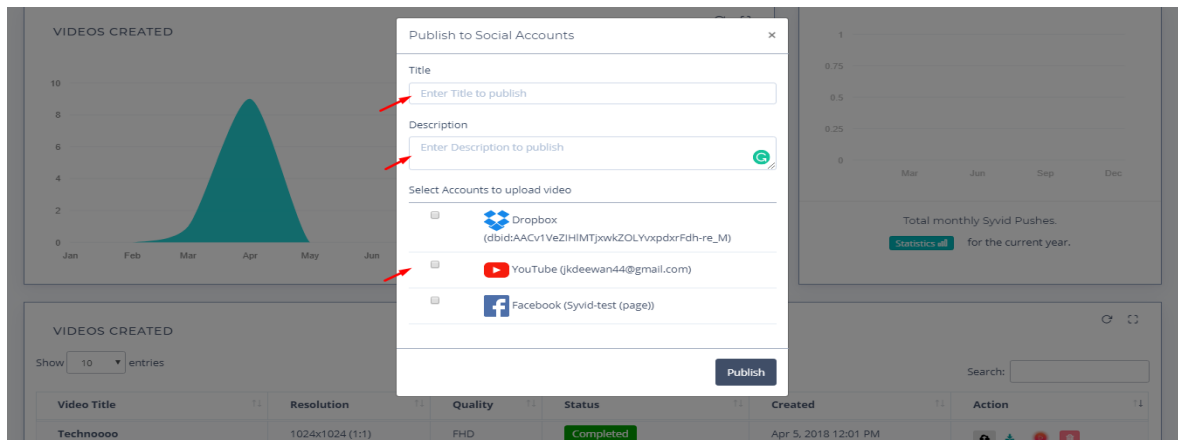

The screenshot shows the VidCuratorFX dashboard with two green notification banners at the top right. The first banner says 'Video distributed to social accounts' and the second says 'Video will be uploaded to Facebook'. The dashboard navigation bar includes links for Dashboard, Create Video, Auto Video Creator, Clients, Social Accounts, and Training.

B. YouTube

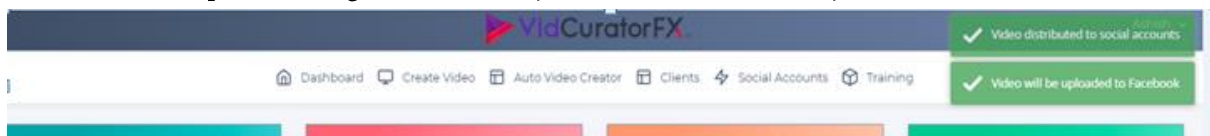

Step 1- In-order to post into your connected YouTube account you need to go to dashboard and click on the "Publish to social Account" icon.

Step 2- Upon Clicking on " Publish to Social Account icon " will open up a popup where you need to add title and description for the video you would like to post. Give a title and description to the video and then select the connected Youtube account and click on "Publish" button.

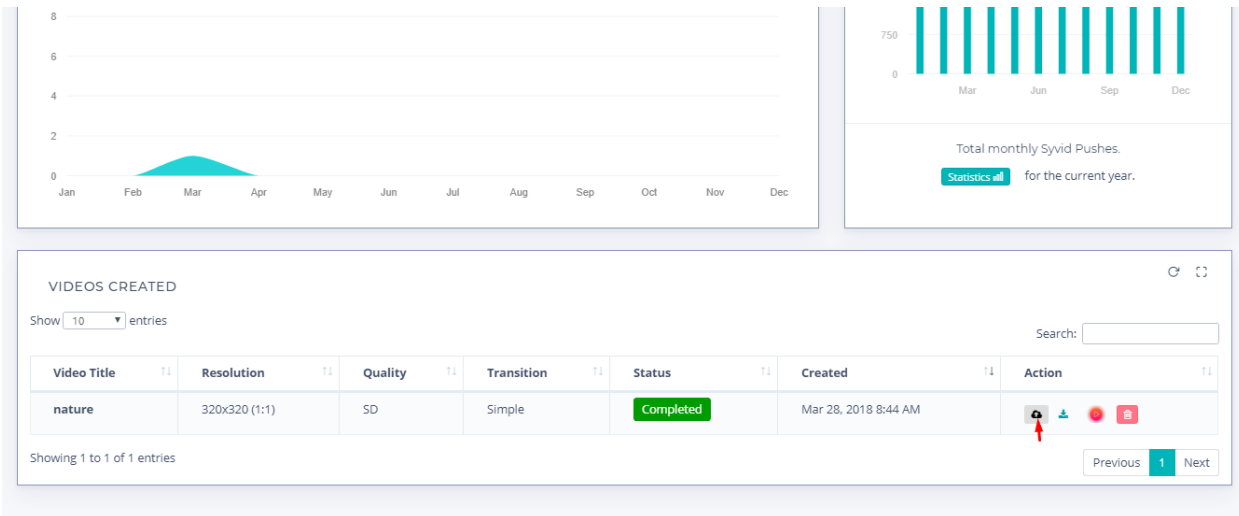

Upon clicking on "Publish" you will be notified on your dashboard

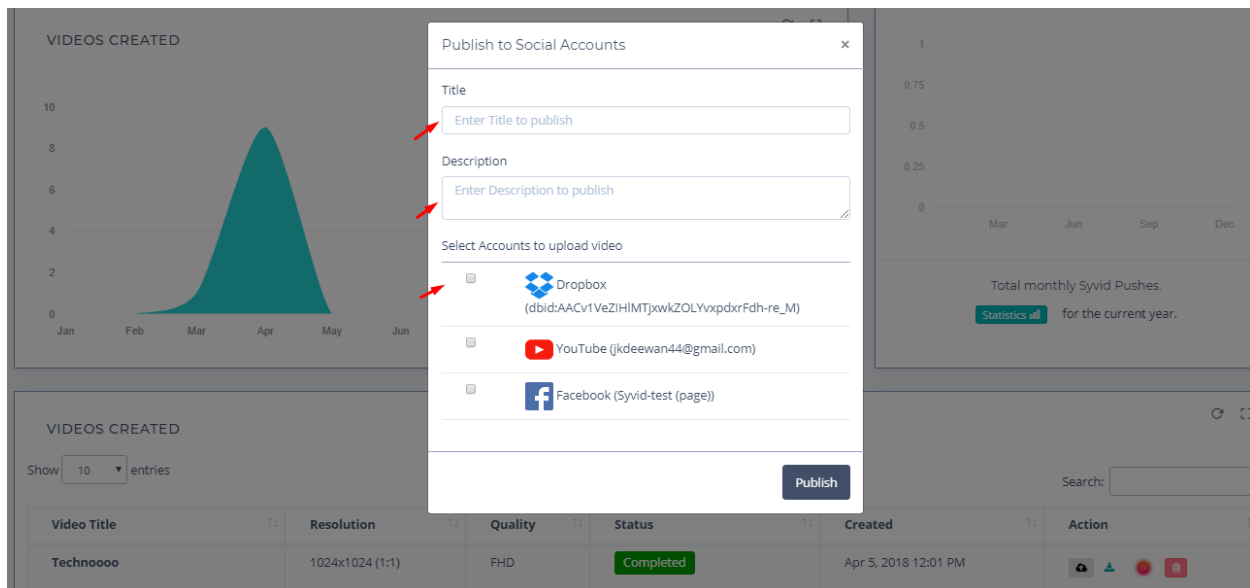

C. Dropbox

Step 1- In-order to post into your connected Dropbox account you need to go to dashboard and click on the "Publish to social Account" icon.

Step 2- Upon Clicking on Publish to Social Account icon will open up a popup where you need to add title and description for the video you would like to post. Give a title and description to the video and then select the connected Dropbox account and click on "Publish" button.

Upon clicking on "Publish" you will be notified on your dashboard
